55P Meaning of “emergency coastal protection works”

(1) **General meaning**

In this Act, *emergency coastal protection works* means works comprising the placement of the following material, in compliance with the requirements of this section, on a beach, or a sand dune adjacent to a beach, to mitigate the effects of wave erosion on land:

 - (a) where, on the final determination of that development application (including any appeals relating to that application), the application is refused—21 days after that final determination, or
 - (b) where, on the final determination of that development application (including any appeals relating to that application), the application is granted—such further period as is specified in the consent.
- (3) Works cease to be emergency coastal protection works for the purposes of this Act if the works remain in place for longer than the maximum period allowed for emergency coastal protection works under this section.

55R Maintenance requirements for emergency coastal protection works

55S Emergency coastal protection works may be placed only once

496B Making and levying of annual charges for coastal protection services

- (1) A council may, in accordance with this Act and the regulations, make and levy an annual charge for the provision by the council of coastal protection services for a parcel of rateable land that benefits from the services, being services that relate to coastal protection works constructed:
 - (a) by or on behalf of the owner or occupier (or a previous owner or occupier) of the parcel of land, or
 - (b) jointly by or on behalf of:
 - (i) the owner or occupier (or a previous owner or occupier) of the parcel of land, and
 - (ii) a public authority or a council.
- (2) An annual charge for the provision of coastal protection services must be calculated so as to not exceed the reasonable cost to the council of providing those services (including any legal, insurance, engineering, surveying, project management, financing and similar costs associated with providing those services).

Note. The coastal protection services for which an annual charge may be made and levied are services:

 - (a) to maintain and repair coastal protection works, or
 - (b) to manage the impacts of such works (such as changed or increased beach erosion elsewhere).

See the definition of **coastal protection service** in the Dictionary.
- (3) If a person is aggrieved by the amount of the annual charge, the person may appeal to the Land and Environment Court and that Court may determine the amount.
- (4) The fact that an appeal is pending does not in the meantime affect the levying of the annual charge to which the appeal relates and the charge may be recovered as if no appeal were pending.
- (5) If a person's appeal is, in whole or in part, successful, the council must refund any amount paid in excess of a requirement for payment under this Act.

- (6) If the Land and Environment Court, in the course of determining an appeal under subsection (3), determines the reasonable cost to the council of providing coastal protection services in relation to particular coastal protection works, that determination is binding in relation to the calculation of the annual charge for all other parcels of land that benefit from those same services.
- (7) For the avoidance of doubt, a parcel of land benefits from the provision of coastal protection services even if:
 - (a) the services relate to private coastal protection works (such as a seawall) wholly on the parcel or on a neighbouring parcel of private land, or
 - (b) the services are carried out on land that is outside the council's area.
- (8) Subsection (1) does not authorise or permit a council to make or levy an annual charge for the provision of coastal protection services for rateable land that is held under a lease for private purposes granted under the *Aboriginal Housing Act 1998* or the *Housing Act 2001*.
- (9) The Minister administering the *Coastal Protection Act 1979* is to issue guidelines relating to the making and levying of charges under this section. A council is to have regard to any such guidelines when making and levying such charges.

-
- (2) Despite subsection (1), the council may make and levy an annual charge on a parcel of rateable land for coastal protection services that relate to existing coastal protection works if the owner or occupier (or any previous owner or occupier) of the parcel of rateable land contributed, after the commencement of this section, to the upgrade or expansion of the existing coastal protection works. However, any such annual charge must be calculated so as to enable the council only to recover that portion of the reasonable cost to the council of providing those services that exceeds the reasonable cost to the council of providing such services had the existing coastal protection works not been upgraded or expanded.
 - (3) An annual charge for coastal protection services may not be levied on a parcel of rateable land in relation to any coastal protection works if:
 - (a) the maintenance of the works or the management of the impacts of the works (as appropriate) is a condition of an approval or consent under the *Environmental Planning and Assessment Act 1979* relating to the works, and
 - (b) that maintenance or management work is not being carried out by or on behalf of the council.
 - (4) In this section, *existing coastal protection works* means coastal protection works that existed before the commencement of this section.

- (3) A request for an estimate under subsection (1) is to be accompanied by a fee determined by the council to cover the council's reasonable costs in providing the estimate.

- (4) A council must provide the estimate within 30 days of the submission of the request (including the required information) and fee.
- (5) An estimate provided by the council does not bind or limit the council in the making or levying of a charge for coastal protection services under this Act.

606B Review of cost of coastal protection service charges on request of ratepayer

- (1) A council must, on request, provide a person who is liable to pay an annual charge for coastal protection services with a report prepared by an independent person on the cost to the council of providing those services.
- (2) A request for a report under subsection (1) is to be accompanied by a fee determined by the council to cover the council's reasonable costs in providing the report.
- (3) If a council provides a report to a person under subsection (1) the council is to make the report available to all other persons liable to pay an annual charge in relation to the same services.
- (4) A council is not required to provide a report under subsection (1) to a person if the council has in the previous 3 years provided or made available to the person such a report in relation to the same coastal protection services.
- (5) Despite subsection (2), a fee is not required to accompany the following requests:
 - (a) a request made during the first year that an annual charge is made and levied on the relevant parcel of land,
 - (b) a request made during the year following an increase in the annual charge by a percentage that is greater than the percentage specified in an order under section 506 for the year concerned.

-
- (2) A council directed to provide a report under subsection (1) must submit the report to the Coastal Protection Minister:
- (a) within 90 days of the direction, or
 - (b) within such longer period as may be agreed to by the Coastal Protection Minister.
- (3) If a council fails to comply with this section, the Coastal Protection Minister may:
- (a) commission an independent person to prepare the report, and

- The council is to co-operate with the independent person in the preparation of the report.
